

EECS 2311 Section Z Team 10

Alireza Hakim TakeHomeAssignment

Note: The group only had implemented three user stories as a result we have assigned 2 people per user story. (verified with TA)

User story:

Photo Uploads

- a. As a photographer, I want to be able to upload my photos and the location where I took them

Steps for the test:

1. Created an account in the site to access the upload feature (the sign up worked)
2. Clicked on the "Submit" button in the top right corner
3. Added a Photo Description
4. Clicked the "Register" button

Clicking the register button had no effect, as it is not fully implemented yet. It was not buggy, but not functional either. There were no other possible scenarios to test this functionality in.
